

## TQC-2400A-N Mobile Antenna

TQC-2400A-N Mobile Antenna is designed for 2.4GHz spread spectrum automobile terminal communication system. Using the stainless spring material, it features high gain, fine VSWR, good flexibility and anti-aging performance.

| Specifications                     |                           |
|------------------------------------|---------------------------|
| Model                              | TQC-2400A-N               |
| Freq. Range-MHz                    | 2400~2483                 |
| Bandwidth—MHz                      | 83                        |
| Gain-dBi                           | 7                         |
| VSWR                               | ≤1.5                      |
| Nominal Impedance -Ω               | 50                        |
| Polarization                       | Vertical                  |
| Max. Power-W                       | 50                        |
| Connector                          | SMA Male or Customization |
| Length-cm                          | 26                        |
| Weight-g                           | 200                       |
| Remark: match with a magnet mount. |                           |
